

## PRESS RELEASE

September 25, 2007

From: Cheryl A. Moody  
Business Development Director  
Heneghan & Associates, P.C.  
310 A Vision Drive  
Columbia, IL 62236  
618-281-8133

Dean P. Heneghan (center) presents Monica French (left) and Gary Richards (right) with 10-year service awards.

Dean Heneghan, owner and President of Heneghan & Associates, P.C. was pleased to present two engineering employees, Monica French and Gary Richards with 10-year service awards during the month of September. French and Richards work in the Centralia office, with 3 additional offices located in Jerseyville, Godfrey, and Columbia.

French graduated in 1995 with an associate of science degree from Kaskaskia College in Centralia. She went on to receive her bachelor of science degree in civil engineering in 1997 from University of Illinois in Champaign and her professional engineering license in 2002.

“Heneghan and Associates has been an extended family for me for the last 10 years,” French said.

French is presently working for the City of Centralia on the Heritage Woods water main extension and College Avenue sanitary sewer main rehabilitation. She is also working on the design for the reconstruction of Independence Street in Cape Girardeau, Missouri.

Richards graduated from Southern Illinois University at Carbondale with a bachelor of science degree in mechanical engineering technology. He has worked as a project representative on water and sewer projects, performed preliminary engineering, design layout, and shop drawing review. He works on the survey crew and is currently working as the project representative on the Bradley Township water project for Washington County Water Company.

“I enjoy getting rural water to people who never thought they would ever see it, because I know how glad I was to get it at my own home,” Richards said.

For more than 20 years, Heneghan and Associates, P.C. has provided engineering and surveying services to more than 20 municipalities, county, state, and federal agencies, water districts, educational institutions, developers and more.
